MEDIA RELEASE

Alexander Funds wins new mandate

Alpha Fund Managers is now a key investor in the Alexander Credit Opportunities Fund (ACOF), the flagship product of Fixed Income specialist Alexander Funds Management.

The Alexander Credit Opportunities Fund aims to provide opportunities in the fixed income market that would otherwise be difficult for individual investors to come by.

This new partnership allows Alpha's extensive investor base to benefit from ACOF's stability and the experience of its portfolio managers.

Portfolio manager at Alpha, Julien Brodie, said that he was "attracted to ACOF's solid track record of both strong and highly consistent returns, specialist fixed income capability and the accessibility of senior management at Alexander Funds being a local Melbourne boutique manager".

"It's a great opportunity for us to provide access to fixed income for people who may not otherwise consider the asset class" says Alexander Funds' Director Chris Black. "ACOF is an ideal addition to Alpha's portfolio as it aims to deliver consistent returns even in volatile market conditions".

The investment follows Alexander Credit Opportunities Fund's multiple nominations at the Australian Hedge Fund Awards over the past 5 years.
